

§ 1267.3

12 CFR Ch. XII (1–12 Edition)

681, to the extent such investment is made for purposes of aiding members of the Bank; and

(6) Instruments that the Bank has determined are permissible investments for fiduciary or trust funds under the laws of the state in which the Bank is located.

(b) Subject to any applicable limitations set forth in this part and in part 1272 of this chapter, a Bank also may enter into the following types of transactions:

- (1) Derivative contracts;
- (2) Standby letters of credit, pursuant to the requirements of part 1269 of this title;
- (3) Forward asset purchases and sales;
- (4) Commitments to make advances; and
- (5) Commitments to make or purchase other loans.

§ 1267.3 Prohibited investments and prudential rules.

(a) *Prohibited investments.* A Bank may not invest in:

- (1) Instruments that provide an ownership interest in an entity, except for investments described in § 1265.3(e) and (f) of this chapter;
- (2) Instruments issued by non-United States entities, except United States branches and agency offices of foreign commercial banks;
- (3) Debt instruments that are not rated as investment grade, except:
 - (i) Investments described in § 1265.3(e) of this chapter; and
 - (ii) Debt instruments that were downgraded to a below investment grade rating after acquisition by the Bank;
- (4) Whole mortgages or other whole loans, or interests in mortgages or loans, except:
 - (i) Acquired member assets;
 - (ii) Investments described in § 1265.3(e) of this title;
 - (iii) Marketable direct obligations of state, local, or Tribal government units or agencies, having at least the second highest credit rating from an NRSRO, where the purchase of such obligations by the Bank provides to the issuer the customized terms, necessary liquidity, or favorable pricing required

to generate needed funding for housing or community lending;

(iv) Mortgage-backed securities, or asset-backed securities collateralized by manufactured housing loans or home equity loans, that meet the definition of the term “securities” under 15 U.S.C. 77b(a)(1) and are not otherwise prohibited under paragraphs (a)(5) through (a)(7) of this section, and

(v) Loans held or acquired pursuant to section 12(b) of the Bank Act (12 U.S.C. 1432(b)).

(5) Residual interest and interest accrual classes of securities;

(6) Interest-only and principal-only stripped securities; and

(7) Fixed rate mortgage-backed securities or eligible asset-backed securities or floating rate mortgage-backed securities or eligible asset-backed securities that on the trade date are at rates equal to their contractual cap, with average lives that vary more than six years under an assumed instantaneous interest rate change of 300 basis points, unless the instrument qualifies as an acquired member asset under part 955 of this title.

(b) *Foreign currency or commodity positions prohibited.* A Bank may not take a position in any commodity or foreign currency. The Banks may issue consolidated obligations denominated in a currency other than U.S. Dollars or linked to equity or commodity prices, provided that the Banks meet the requirements of § 1270.9(d) of this chapter, and all other applicable requirements related to issuing consolidated obligations.

(c) *Limits on certain investments.* (1) A purchase, otherwise authorized under this part, of mortgage-backed securities or asset-backed securities, may not cause the aggregate value of all such securities held by the Bank to exceed 300 percent of the Bank’s total capital. For purposes of this limitation, such aggregate value will be measured as of the transaction trade date for such purchase, and total capital will be the most recent amount reported by a Bank to FHFA. A Bank will not be required to divest securities solely to bring the level of its holdings into compliance with the limits of this paragraph, provided that the original

purchase of the securities complied with the limits in this paragraph.

(2) A Bank's purchase of any mortgage-backed or asset-backed security may not cause the value of its total holdings of mortgage-backed and asset-backed securities, measured as of the transaction trade date for such purchase, to increase in any calendar quarter by more than 50 percent of its total capital as of the beginning of such quarter.

(3) For purposes of applying the limits under this paragraph (c), the value of relevant mortgage-backed or asset-backed securities shall be calculated based on amortized historical costs for securities classified as held-to-maturity or available-for-sale and on fair value for trading securities.

§ 1267.4 Limitations and prudential requirements on use of derivative instruments.

(a) *Non-speculative use.* Derivative instruments that do not qualify as hedging instruments pursuant to GAAP may be used only if a non-speculative use is documented by the Bank.

(b) *Additional Prohibitions.* (1) A Bank may not enter into interest rate swaps that amortize according to behavior of instruments described in § 1267.3(a)(5) or (6) of this part.

(2) A Bank may not enter into indexed principal swaps that have average lives that vary by more than six years under an assumed instantaneous change in interest rates of 300 basis points, unless they are entered into in conjunction with the issuance of consolidated obligations or the purchase of permissible investments or entry into a permissible transaction in which all interest rate risk is passed through to the investor or counterparty.

(c) *Documentation requirements.* (1) Derivative transactions with a single counterparty shall be governed by a single master agreement when practicable.

(2) A Bank's agreement with the counterparty for over-the-counter derivative contracts shall include:

(i) A requirement that market value determinations and subsequent adjustments of collateral be made at least on a monthly basis;

(ii) A statement that failure of a counterparty to meet a collateral call will result in an early termination event;

(iii) A description of early termination pricing and methodology, with the methodology reflecting a reasonable estimate of the market value of the over-the-counter derivative contract at termination (standard International Swaps and Derivatives Association, Inc. language relative to early termination pricing and methodology may be used to satisfy this requirement); and

(iv) A requirement that the Bank's consent be obtained prior to the transfer of an agreement or contract by a counterparty.

§ 1267.5 Risk-based capital requirements for investments.

Any Bank which is not subject to the capital requirements set forth in part 932 of this title shall hold retained earnings plus general allowance for losses as support for the credit risk of all investments that are not rated by an NRSRO, or are rated or have a putative rating below the second highest credit rating, in an amount equal to or greater than the outstanding balance of the investments multiplied by:

(a) A factor associated with the credit rating of the investments as determined by FHFA on a case-by-case basis for rated assets to be sufficient to raise the credit quality of the asset to the second highest credit rating category; and

(b) 0.08 for assets having neither a putative nor actual rating.
